CONTENTS OF VOLUME 67, 1977

No. 1 — JANUARY

1 Acknowledgment of reviewers

5 Author's Guide

DISEASE DETECTION AND LOSSES

9 Effects of chrysanthemum stunt, chlorotic mottle, aspermy and mosaic on flowering and rooting of chrusanthemums ..... R. K. Horst, R. W. Langhans, and S. H. Smith

15 Infectivity of potato spindle tuber viroid in potato plant parts ..... R. P. Singh

ETIOLOGY

18 Root decay caused by Kretschmaria clavus: its relation to macadamia decline ..... W. H. Ko, R. K. Kunimoto, and I. Maedo

22 Occurrence and characteristics of isolates of Pseudomonas syringae on winter wheat ..... J. D. Otta

27 Involvement of maize chlorotic dwarf virus and other agents in stunting diseases of Zea mays in the United States ..... D. T. Gordon and L. R. Nault

37 An unusual viruslike particle associated with golden yellow mosaic of beans ..... R. M. Goodman, J. Bird, and P. Thongmeearkom

43 Physical, chemical, and serological properties of cymbidium mosaic virus ..... J. A. Frowd and J. H. Tremaine

PHYSIOLOGY AND BIOCHEMISTRY

50 Soybean phytoalexins: rates of synthesis are not regulated by activation of initial enzymes in flavonoid biosynthesis ..... J. E. Partridge and N. T. Keen

56 Influence of Dutch elm disease on resistance to water flow through roots of American elm ..... B. R. Roberts and L. R. Schreiber

60 The effect of low-temperature pre-incubation treatment of tobacco and soybean callus cultures on rates of tobacco- and southern bean mosaic virus synthesis ..... J. L. White, F. Wu, and H. H. Murakishi

64 Metabolism of capsidiol by sweet pepper tissue: some possible implications for phytoalexin studies ..... A. Stoessl, J. R. Robinson, G. L. Rock, and E. W. B. Ward

ECOLOGY AND EPIDEMIOLOGY

67 Responses of Pythium ultimum and other fungi to a soil extract containing an inhibitor with low molecular weight ..... O. Vaartaja

72 Inoculum potential in relation to biological control of Fusarium wilt of peas ..... S. O. Guy and R. Baker

79 **Detection of Phytophthora lateralis in soil organic matter and factors that affect its survival** ..... W. D. Ostrofsky, R. G. Pratt, and L. F. Roth

85 **Controlled-environment studies of the epidemiology of yellow leaf blight of corn** ..... L. L. Castor, J. E. Ayers, and R. R. Nelson

91 **The effect of visible and near-visible radiation on sporangium production by Phytophthora cinnamoni** ..... G. A. Zentmyer and O. K. Ribiero

96 **The role of phyllosphere bacteria in pathogenesis by Botrytis squamosa and B. cinerea on onion leaves** ..... C. A. Clark and J. W. Lorbeer

101 **Isolation of Erwinia amylovora bacteriophage from aerial parts of apple trees** ..... D. F. Ritchie and E. J. Klos

RESISTANCE

105 **Lack of close correlation of stalk-rot reactions of corn inbreds inoculated with Diplodia maydis and Colletotrichum graminicola** ..... D. G. White

108 **Host-pathogen interactions preceding the hypersensitive reaction of Malus sp. to Venturia inaequalis** ..... R. L. Nicholson, S. Van Scoyoc, E. B. Williams, and J. Kuć

115 **Inheritance of resistance to pepper veinal mottle virus in chilli** ..... A. C. Soh, T. C. Yap, and K. M. Graham

POSTHARVEST PATHOLOGY AND MYCOTOXINS

118 **Vulnerability of stem-end scars of blueberry fruits to postharvest decays** ..... R. A. Cappellini and M. J. Ceponis

120 **The effect of ethylene on susceptibility of Robinson tangerines to anthracnose** ..... G. E. Brown and C. R. Barmore

DISEASE CONTROL AND PEST MANAGEMENT

124 **Shoot and flower blight of Leucospermum cordifolium incited by a benomyl-tolerant strain of Botrytis cinerea** ..... J. J. Cho

128 **Protective applications of conidia of nonpathogenic Alternaria sp. isolates for control of Tobacco brown spot disease** ..... H. W. Spurr, Jr.

133 **Influence of fungicide sprays on sporulation of Cochliobolus sativus on Cypress wheat and on conidial populations in soil** ..... S. H. F. Chinn

139 **Prevention of crown gall on Prunus roots by bacterial antagonists** ..... L. W. Moore

No. 2 — FEBRUARY

DISEASE DETECTION AND LOSSES

145 **Potato spindle tuber disease: procedures for the detection of viroid RNA and certification of disease-free potato tubers** ..... T. J. Morris and E. M. Smith

151 **Relationship of age of plants and resistance to a severe isolate of the beet curly top virus** ..... J. E. Duffus and I. O. Skoyen

ETIOLOGY

155 **Etiology and control of onion flower blight** ..... L. A. Ellerbrock and J. W. Lorbeer

160 **Survival of Colletotrichum graminicola in corn kernels** ..... H. L. Warren

163 **Curly dwarf mosaic disease of beans from El Salvador** ..... J. P. Meiners, H. E. Waterworth, R. H. Lawson, and F. F. Smith

169 **Purification and properties of a virus from El Salvador that causes mild mosaic in bean cultivars** ..... H. E. Waterworth, J. P. Meiners, R. H. Lawson, and F. F. Smith

174 **Andean potato calico strain of tobacco ringspot virus** ..... C. E. Fribourg

CYTOLOGY AND HISTOLOGY

179 **Infection and colonization of different organs of slash pine seedlings by Cronartium fusiforme** ..... T. Miller and E. B. Cowling

187 **Timing and significance of papilla formation during host penetration by Olpidium brassicae** ..... J. R. Aist and H. W. Israel

195 **Histopathology of immune and susceptible cotton cultivars inoculated with Xanthomonas malvacearum** ..... E. T. Cason, Jr., P. E. Richardson, L. A. Brinkerhoff, and R. K. Gholson

199 **Effects of soybean mosaic virus infection on ultrastructure of bacteroidal cells in soybean root nodules** ..... J. C. Tu

PHYSIOLOGY AND BIOCHEMISTRY

206 **Carbohydrate accumulation and depletion by winter cereals differing in resistance to Typhula idahoensis** ..... R. K. Kiyomoto and G. W. Bruehl

ECOLOGY AND EPIDEMIOLOGY

212 **Comparative nutrient dependency of Botrytis squamosa and B. cinerea for germination of conidia and pathogenicity on onion leaves** ..... C. A. Clark and J. W. Lorbeer

219 **Survival of sclerotia and conidia of Botrytis squamosa** ..... L. A. Ellerbrock and J. W. Lorbeer

226 **Interaction of Fusarium root rot with pea aphid and potato leafhopper feeding on forage legumes** ..... K. T. Leath and R. A. Byers

230 **Effect of temperature on development of Kabatiella caulivora in Trifolium subterraneum** ..... K. Helms

234 **Epidemiology and control of a blight of Juniperus virginiana caused by Cercospora sequoiae var. juniperi** ..... G. W. Peterson

239 **Effect of water potential on the growth and survival of Macrophomina phaseolina** ..... F. M. Shokes, S. D. Lyda, and W. R. Jordan

RESISTANCE

242 **Seedling age and fertilization affect susceptibility of loblolly pine to fusiform rust** ..... S. J. Rowan and K. Steinbeck

247 **Resistance of maize to anthracnose: effect of light intensity on lesion development** ..... R. Hammerschmidt and R. L. Nicholson

251 **Resistance of maize to anthracnose: changes in host phenols and pigments** ..... R. Hammerschmidt and R. L. Nicholson

259 **Nature and inheritance of resistance to Gymnosporangium juniperi-virginianae in apple cultivars** ..... H. S. Aldwinckle, R. C. Lamb, and H. L. Gustafson

267 **Three new physiologic races of Phytophthora megasperma var. sojae** ..... F. A. Laviolette and K. L. Athow

269 **Susceptibility and immunity in soybean to beet western yellows virus** ..... J. E. Duffus and G. M. Milbrath

DISEASE CONTROL AND PEST MANAGEMENT

273 **Effect of trifluralin and dinitramine on Aphanomyces root rot of pea** ..... C. R. Grau and T. P. Reiling

277 **Symptom remission in X-diseased peach trees as affected by date, method, and rate of application of oxytetracycline-HCl** ..... D. A. Rosenberger and A. L. Jones

TECHNIQUES

283 **Stability of potato spindle tuber viroid in freeze-dried leaf powder** ..... R. P. Singh and R. E. Finnie

No. 3. — MARCH

287 **Jack Taylor, 1922-1975** ..... W. M. Powell and E. S Luttrell

DISEASE DETECTION AND LOSSES

288 **Effectiveness of a disease index system in evaluating corn for resistance to maize dwarf mosaic virus** ..... C. W. Kuhn and T. H. Smith

292 **Effects of tobacco- and tomato ringspot viruses on the reproductive tissues of Pelargonium × hortorum** ..... B. A. Scarborough and S. H. Smith

ETIOLOGY

298 **Reinvestigation of the role of a lactobacillus associated with leafhopper vectors of Pierce's disease of grapevines** ..... A. H. Purcell, B. A. Latorre-Guzmán, C. I. Kado, A. C. Goheen, and T. A. Shalla

302 **A bacterial wilt and root rot of sweet potato caused by Erwinia chrysanthemi** ..... N. W. Schaad and D. Brenner

CYTOLOGY AND HISTOLOGY

309 **Mycoparasitic relationships: Gonatobotrys simplex parasitic on Alternaria tenuis** ..... H. C. Hoch

315 **Ultrastructure of penetration of ethylene-degreened Robinson tangerines by Colletotrichum gloeosporioides** ..... G. E. Brown

321 **Effects of dark treatment on the ultrastructure of the aster yellows agent in situ** ..... M. Chen and C. Hiruki

PHYSIOLOGY AND BIOCHEMISTRY

325 **Effects of Helminthosporium maydis T-toxin on the uptake of uranyl salts in corn roots** ..... H. Wheeler and V. D. Ammon

331 **Changes in resistance to water transport in safflower during the development of Phytophthora root rot** ..... J. M. Duniway

338 **Simultaneous changes in the rate and pathways of glucose oxidation in victorin-treated oat leaves** ..... C. D. Rawn

344 **Effect of temperature on symptoms of tobacco mosaic virus and movement of photosynthate in Nicotiana glutinosa** ..... K. Helms and I. F. Wardlaw

ECOLOGY AND EPIDEMIOLOGY

351 Spore germination and mode of cotton infection by Ramularia areola ..... Y. Rathaiah

358 Stomatal tropism of Cercospora beticola in sugarbeet ..... Y. Rathaiah

363 Sources of primary inoculum of Botrytis squamosa ..... L. A. Ellerbrock and J. W. Lorbeer

373 Experimental evaluation of hypotheses explaining the nature of soil fungistasis ..... T. S. Hora, R. Baker, and G. J. Griffin

380 Northern leaf blight of maize in New Zealand: release and dispersal of conidia of Drechslera turcica ..... C. M. Leach, R. A. Fullerton, and K. Young

388 Bacterial speck of tomato: sources of inoculum and establishment of a resident population ..... R. W. Schneider and R. G. Grogan

395 Surface contamination of pollen by plant viruses ..... R. I. Hamilton, E. Leung, and C. Nichols

POSTHARVEST PATHOLOGY AND MYCOTOXINS

400 Spore germination and mycelial growth of postharvest pathogens under hypobaric pressure ..... A. Apelbaum and R. Barkai-Golan

404 Sour rot of peaches caused by Monilia implicata and Geotrichum candidum ..... J. M. Wells

DISEASE CONTROL AND PEST MANAGEMENT

409 Timing initial fungicide application to control Botrytis leaf blight epidemics on onions ..... P. B. Shoemaker and J. W. Lorbeer

415 Integrated control of potato late blight—effects of polygenic resistance and techniques of timing fungicide applications ..... W. E. Fry

421 Acquired tolerance to blasticidin-S in Pyricularia oryzae ..... B. K. Hwang and H. S. Chung

TECHNIQUES

425 Selective inhibition of Pythium spp. on a medium for direct isolation of Phytophthora spp. from soils and plants ..... H. Masago, M. Yoshikawa, M. Fukada, and N. Nakanishi

No. 4 — APRIL

429 Harold Hall McKinney, 1889-1976 ..... R. A. Kilpatrick and M. K. Brakke

ETIOLOGY

430 A stem rot of bean seedlings caused by a sterile fungus in Florida ..... C. M. Howard, K. E. Conway, and E. E. Albregts

434 Laminar necrosis, growth inhibition, and death of tobacco plants caused by toxic extracts of Phytophthora cryptogea ..... A. Csinos and J. W. Hendrix

439 Pathogenicity of tobacco ringspot virus in cherry ..... J. K. Uyemoto, M. F. Welsh, and E. Williams

442 Purification and characterization of a virus associated with the grapevine leafroll disease ..... E. Tanne, I. Sela, M. Klein, and I. Harpaz

448 Characterization of Iris fulva mosaic virus ..... O. W. Barnett and M. Alper

CYTOLOGY AND HISTOLOGY

455 **Papilla formation: timing and significance during penetration of barley coleoptiles by Erysiphe graminis hordei** ..... J. R. Aist and H. W. Israel

462 **Ultrastructure of cell-wall thickenings and paramural bodies induced by barley stripe mosaic virus** ..... C. R. McMullen, W. S. Gardner, and G. A. Myers

PHYSIOLOGY AND BIOCHEMISTRY

468 **Phytoalexins from potatoes: evidence for the conversion of lubimin to 15-dihydrolubimin by fungi** ..... E. W. B. Ward and A. Stoessl

472 **Stimulation of germination of Puccinia carthami teliospores by polyacetylenes from safflower** ..... R. G. Binder, J. M. Klisiewicz, and A. C. Waiss, Jr.

475 **Population dynamics and pathogenesis of Pseudomonas syringae in maize and cowpea in relation to the in vitro production of syringomycin** ..... D. C. Gross and J. E. DeVay

484 **The influence of bromegrass mosaic virus on the replication of tobacco mosaic virus in Hordeum vulgare** ..... R. I. Hamilton and C. Nichols

ECOLOGY AND EPIDEMIOLOGY

490 **Population dynamics of two vesicular-arbuscular endomycorrhizal fungi and the role of hyperparasitic fungi** ..... J. P. Ross and R. Ruttencutter

497 **Early development of Pythium polymorphon on celery roots infected by Meloidogyne hapla** ..... J. L. Starr and J. R. Aist

502 **Comparison of germination of pathogenic Fusarium oxysporum chlamydospores in host rhizosphere soils conducive and suppressive to wilts** ..... S. N. Smith

511 **Infection, epidemiology, and control of Diplodia blight of Austrian, ponderosa, and Scots pine** ..... G. W. Peterson

515 **The role of airborne conidia in epiphytotics of Sclerospora sorghi on sweet corn** ..... Y. Cohen and Y. Sherman

VECTOR RELATIONS

522 **Transmission of a celery-infecting strain of aster yellows by the leafhopper Aphrodes bicinctus** ..... L. N. Chiykowski

GENETICS

525 **A dominant gene conferring resistance to Fusarium wilt in cucumber** ..... D. Netzer, S. Niego, and E. Galun

528 **A study of race populations of Puccinia recondita f. sp. tritici** ..... H. C. Young, Jr. and J. M. Prescott

RESISTANCE

533 **Aspects of the protection of cucumber against Colletotrichum lagenarium by Colletotrichum lagenarium** ..... J. Kuć and S. Richmond

537 **Probable source of Meloidogyne incognita resistance in tobacco as indicated by reactions to five Meloidogyne isolates** ..... L. J. Slana, J. R. Stavely, J. J. Grosso, and A. M. Golden

POSTHARVEST PATHOLOGY AND MYCOTOXINS

544 **Relation of insect damage, vector, and hybrid reaction to aflatoxin B_1 recovery from field corn** ..... J. C. LaPrade and A. Manwiller

DISEASE CONTROL AND PEST MANAGEMENT

548 Control of Fusarium wilt of safflower by mangiferin .. S. Ghosal, K. Biswas, D. K. Charkrabarti, and K. C. Basu Chaudhary

551 Effect of dinitramine and trifluralin on growth, reproduction, and infectivity of Aphanomyces euteiches ..... C. R. Grau

557 Pesticide plant disease interactions: effect of cycloate on growth of Rhizoctonia solani ..... C. L. Campbell and J. Altman

561 Suppression of Phytophthora cinnamomi in a composted hardwood bark potting medium ..... H. A. J. Hoitink, D. M. VanDoren, Jr., and A. F. Schmitthenner

TECHNIQUES

566 Population of Rhizoctonia solani in agricultural soils determined by a screening procedure ..... A. R. Weinhold

570 Detection of wheat streak mosaic virus antigens in vector mites with fluorescent antibodies ..... R. C. Sinha and Y. C. Paliwal

No. 5 — MAY

DISEASE DETECTION AND LOSSES

573 Influence of recent and chronic virus infections on strawberry growth and yield ..... L. W. Martin and R. H. Converse

576 Gamete-seed transmission of alfalfa mosaic virus and its effect on seed germination and yield in alfalfa plants ..... K. Hemmati and D. L. McLean

ETIOLOGY

580 Greasy blotch of carnation and flyspeck of apple: diseases caused by Zygophiala jamaicensis ..... K. F. Baker, L. H. Davis, R. D. Durbin, and W. C. Snyder

CYTOLOGY AND HISTOLOGY

589 Scanning electron microscopy of cotton boll invasion by Diplodia gossypina ..... J. P. Snow and M. G. Sachdev

592 Indicator hosts for pear decline: symptomatology, histopathology, and distribution of mycoplasmalike organisms in leaf veins ..... H. Schneider

PHYSIOLOGY AND BIOCHEMISTRY

602 A survey of plant insensitivity to tentoxin ..... R. D. Durbin and T. F. Uchytil

604 Cytokinin levels and kinetin-virus interactions in tobacco ringspot virus-infected cowpea plants ..... W. E. Kuriger and G. N. Agrios

610 Infection of barley protoplasts with brome mosaic virus ..... T. Okuno, I. Furusawa, and C. Hiruki

ECOLOGY AND EPIDEMIOLOGY

616 Effect of ozone on parasitism of corn by Helminthosporium maydis ..... A. S. Heagle

619 Epidemiological factors of sugar beet powdery mildew ..... E. G. Ruppel and B. J. Tomasovic

622 Parasitism of oospores of Phytophthora megasperma var. sojae, P. cactorum, Pythium sp., and Aphanomyces euteiches in soil by oomycetes, chytridiomycetes, hyphomycetes, actinomycetes, and bacteria ..... B. Sneh, S. J. Humble, and J. L. Lockwood

629 **Northern leaf blight of maize in New Zealand: relationship of Drechslera turcica airspora to factors influencing sporulation, conidium development, and chlamydospore formation** ..... C. M. Leach, R. A. Fullerton, and K. Young

637 **Effect of water potential and temperature on growth, sporulation, and production of microsclerotia by Verticillium dahliae** ..... N. Ioannou, R. W. Schneider, R. G. Grogan, and J. M. Duniway

645 **Effect of oxygen, carbon dioxide, and ethylene on growth, sporulation, and production of microsclerotia by Verticillium dahliae** ..... N. Ioannou, R. W. Schneider, and R. G. Grogan

651 **Effect of flooding on the soil gas composition and the production of microsclerotia by Verticillium dahliae in the field** ..... N. Ioannou, R. W. Schneider, and R. G. Grogan

657 **Production of sporangia and release of zoospores by Phytophthora megasperma in soil** ..... W. F. Pfender, R. B. Hine, and M. E. Stanghellini

664 **Influence of nutrition, temperature, moisture, and gas composition on parasitism of Rhizopus oryzae by Syncephalis californica** ..... W. E. Hunter, J. M. Duniway, and E. E. Butler

GENETICS

670 **Evidence for heterokaryosis in Phytophthora megasperma var. sojae** ..... M. Long and N. T. Keen

675 **Genetic evidence for diploidy in Phytophthora megasperma var. sojae** ..... M. Long and N. T. Keen

RESISTANCE

678 **Primary infection by Erysiphe graminis f. sp. hordei of barley mutants with resistance genes in the ml-o locus** ..... J. H. Jørgensen and K. Mortensen

686 **Influence of needle age and spore density on susceptibility of longleaf pine to Scirrhia acicola** ..... A. G. Kais

689 **Inheritance of resistance to pokkah boeng in sugarcand crosses** ..... P. M. Lyrene, J. L. Dean, and N. I. James

693 **Fungitoxicity of xylem extracts form tomato plants resistant or susceptible to Fusarium wilt** ..... E. K. Stromberg and M. E. Corden

698 **Reaction of cotyledons of safflower cultivars to Phytophthora drechsleri: effect of temperature and inheritance** ..... C. A. Thomas and R. F. Hill

DISEASE CONTROL AND PEST MANAGEMENT

700 **Induction and chemical control of rot caused by Ceratocystis paradoxa on pineapples** ..... J. J. Cho, K. G. Rohrbach, and W. J. Apt

704 **Relative fitness of benzimidazole- and cadmium-tolerant populations of Sclerotinia homeocarpa in the absence and presence of fungicides** ..... C. G. Warren, P. L. Sanders, H. Cole, Jr., and J. M. Duich

709 **Dosage-response of root-knot nematode-infected grape roots to cis-1,3-dichloropropene** ..... M. V. McKenry, I. J. Thomason, and P. Naylor

TECHNIQUES

712 **A quantitative method for the inoculation of wheat seedlings with pycnidiospores of Septoria nodorum** ..... Z. Eyal and A. L. Scharen

No. 6 — JUNE

715 Edgar Cecil Tullis, 1901-1976 ..... C. R. Adair

DISEASE DETECTION AND LOSSES

716 Growth fluctuation of loblolly pine due to periodic air pollution levels: interaction of rainfall and age ..... S. O. Phillips, J. M. Skelly, and H. E. Burkhart

721 Eastern white pine exhibits growth retardation by fluctuating air pollutant levels: interaction of rainfall, age, and symptom expression ..... S. O. Phillips, J. M. Skelly, and H. E. Burkhart

ETIOLOGY

726 Microsphaera diffusa, the perfect stage of the soybean powdery mildew pathogen ..... M. R. McLaughlin, J. S. Mignucci, and G. M. Milbrath

730 Systemic invasion of cucumber by Pseudomonas lachrymans ..... K. Pohronezny, C. Leben, and P. O. Larsen

735 Properties of the Nigerian and Ivory Coast strains of the okra mosaic virus ..... R. F. Bozarth, A. O. Lana, R. Koenig, and J. Reese

738 Comparative growth and primary isolation of spiroplasmas in media based on insect tissue culture formulations ..... A. L. Jones, R. F. Whitcomb, D. L. Williamson, and M. E. Coan

PHYSIOLOGY AND BIOCHEMISTRY

747 Constituents of orange juice that stimulate the germination of conidia of Penicillium digitatum ..... P. du T. Pelser and J. W. Eckert

755 An evaluation of pea histones as disease resistance factors ..... L. A. Hadwiger, D. C. Loschke, and J. R. Teasdale

ECOLOGY AND EPIDEMIOLOGY

759 General resistance displayed by three hard red spring wheat (Triticum aestivum) cultivars to leaf rust ..... G. D. Statler, J. E. Watkins, and J. Nordgaard

VECTOR RELATIONS

763 Transmission of Spiroplasma citri from citrus to citrus by Scaphytopius nitridus ..... G. N. Oldfield, G. H. Kaloostian, H. D. Pierce, E. C. Calavan, A. L. Granett, R. L. Blue, G. L. Rana, and D. J. Gumpf

GENETICS

766 Pathogenicity associations in Puccinia recondita tritici ..... L. E. Browder and M. G. Eversmeyer

772 Inheritance of bacterial blight resistance in rice ..... J. O. Olufowote, G. S. Khush, and H. E. Kauffman

RESISTANCE

776 Evidence of differential interaction in the polygenic Hordeum vulgare-Puccinia hordei relation during epidemic development ..... J. E. Parlevliet

POSTHARVEST PATHOLOGY AND MYCOTOXINS

779 Production of penitrem A and of an unidentified toxin by Penicillium lanoso-coeruleum isolated from weevil-damaged pecans ..... J. M. Wells and R. J. Cole

DISEASE CONTROL AND PEST MANAGEMENT

783 **Vertical distribution of soil microorganisms following subsoiling in a cotton management system** ..... R. S. Hussey and R. W. Roncadori

787 **Effect of flooding and temperature on incidence and severity of safflower seedling rust and viability of Puccinia carthami teliospores** ..... J. M. Klisiewicz

791 **Pesticide-plant disease interactions: the influence of aldicarb on growth of Rhizoctonia solani and damping-off of sugar beet seedlings** ..... N. Tisserat, J. Altman, and C. L. Campbell

794 **Microwave treatment of tobacco seed to eliminate bacteria on the seed surface** ..... L. Hankin and D. C. Sands

TECHNIQUES

796 **Inhibition of Mortierella and Pythium in a Phytophthora-isolation medium containing hymexazol** ..... P. H. Tsao and S. O. Guy

802 **Culture of corn stunt spiroplasma in a simple medium** ..... C. H. Liao and T. A. Chen

808 **Calcofluor: an optical brightener for fluorescence microscopy of fungal plant parasites in leaves** ..... R. Rohringer, W. K. Kim, D. J. Samborski, and N. K. Howes

810 **Erratum**

No. 7 — JULY

811 **William B. Allington, 1912-1976** ..... J. L. Weihing and R. Staples

ETIOLOGY

812 **Tilletia indica: a heterothallic wheat bunt fungus with multiple alleles controlling incompatibility** ..... R. Durán and R. Cromarty

816 **Cercospora stem blotch disease of rabbiteye blueberry** ..... R. D. Milholland

820 **Botrytis blossom blight of Dendrobium** ..... J. S. Ito and M. Aragaki

825 **Maintenance of viability and virulence of Corynebacterium nebraskense** ..... A. K. Vidaver

828 **The morphology of a Corynebacterium sp. parasitic on annual rye grass** ..... A. F. Bird and B. A. Stynes

831 **Serologically and biologically distinct bean yellow mosaic virus strains** ..... R. T. Jones and S. Diachun

839 **Characterization and electron microscopy of a potyvirus infecting Commelina diffusa** ..... F. J. Morales and F. W. Zettler

844 **Isolation and some properties of a yellow subgroup member of cowpea mosaic virus from Illinois** ..... M. R. McLaughlin, P. Thongmeearkom, G. M. Milbrath, and R. M. Goodman

CYTOLOGY AND HISTOLOGY

848 **Sclerotium germination and histopathology of Monilinia vaccinii-corymbosi on highbush blueberry** ..... R. D. Milholland

PHYSIOLOGY AND BIOCHEMISTRY

855 Sensitization of leaves and pathogens to cold ..... C. E. Yarwood

859 Increase with age in sensitivity of oat leaves to victorin ..... H. Wheeler

862 Purification of an endo-β-1,4 galactanase produced by Sclerotinia sclerotiorum: effects on isolated plant cell walls and potato tissue ..... W. D. Bauer, D. F. Bateman, and C. H. Whalen

869 Quantitative histochemistry of nematode-induced transfer cells ..... F. J. Gommers and V. H. Dropkin

ECOLOGY AND EPIDEMIOLOGY

874 The effect of postinoculation periods of leaf wetness on the response of wheat cultivars to infection by Septoria nodorum ..... Z. Eyal, J. F. Brown, J. M. Krupinsky, and A. L. Scharen

879 Relation of weather variables and periodicities of airborne spores of Alternaria dauci ..... W. J. Langenberg, J. C. Sutton, and T. J. Gillespie

884 Predisposing effect of water stress on the severity of Phytophthora root rot in safflower ..... J. M. Duniway

890 Peronospora trifoliorum sporangium development and effects of humidity and light on discharge and germination ..... P. M. Fried and D. L. Stuteville

895 Presymptomatic egress of Xanthomonas pruni from infected peach leaves ..... W. G. Miles, R. H. Daines, and J. W. Rue

898 Tomato leaf trichomes, a habitat for resident populations of Pseudomonas tomato ..... R. W. Schneider and R. G. Grogan

VECTOR RELATIONS

903 Effect of host preference on transmission of curly top virus to tomato by the beet leafhopper ..... P. E. Thomas and R. K. Boll

GENETICS

906 Inheritance of virulence of culture 73-47 Puccinia recondita ..... G. D. Statler

RESISTANCE

909 Effect of soil temperature on resistance of tomato cultivars to bacterial wilt ..... T. W. Mew and W. C. Ho

912 Bacterial vascular necrosis and rot of sugar beet: effect on cultivars and quality ..... E. D. Whitney and R. T. Llewellen

917 Survey of susceptibility to cowpea mosaic virus among protoplasts and intact plants from Vigna sinensis lines ..... H. Beier, D. J. Siler, M. L. Russell and G. Bruening

POSTHARVEST PATHOLOGY AND MYCOTOXINS

922 Aflatoxin contamination of peanuts resistant to seed invasion by Aspergillus flavus ..... D. M. Wilson, A. C. Mixon, and J. M. Troeger

DISEASE CONTROL AND PEST MANAGEMENT

925 Effect of plant residues on chlamydospore germination of Fusarium solani f. sp. phaseoli and on Fusarium root rot of beans ..... J. A. Lewis and G. C. Papavizas

930 **Biocontrol of tobacco brown-spot disease by Bacillus cereus subsp. mycoides in a controlled environment** ..... D. R. Fravel and H. W. Spurr, Jr.

933 **Piperonyl butoxide as a protectant against potato spindle tuber viroid infection** ..... R. P. Singh

936 **Some biocidal properties of 1,3-D and its degradation product** ..... R. C. Baines, L. J. Klotz, and T. A. DeWolfe

TECHNIQUES

941 **Completion of life cycles of Puccinia hardei and Uromyces scillarum on detached leaves of their hosts** ..... E. Lumbroso, Y. Anikster, J. G. Moseman, and I. Wahl

945 **Recovery of rickettsialike bacteria by vacuum infiltration of peach tissues affected with phony disease** ..... W. J. French, R. G. Christie, and D. L. Stassi

949 **Application of the latex flocculation serological assay to curly top virus** ..... D. L. Mumford

No. 8 — AUGUST

953 **William Dorney Valleau, 1891-1974** ..... S. Diachun

954 **Letter to the Editor: Vessels do end!** ..... C. H. Beckman and J. L. Keller

ETIOLOGY

957 **Varnish spot, destructive disease of lettuce in California caused by Pseudomonas cichorii** ..... R. G. Grogan, I. J. Misaghi, K. A. Kimble, A. S. Greathead, D. Ririe, and R. Bardin

961 **Etiology of watermelon rind necrosis** ..... D. L. Hopkins and G. W. Elmstrom

965 **Mechanical transmission of citrus tristeza virus** ..... S. M. Garnsey, D. Gonsalves, and D. E. Purcifull

969 **Andean potato mottle, a new member of the cowpea mosaic virus group** ..... C. E. Fribourg, R. A. C. Jones, and R. Koenig

975 **Barley yellow dwarf virus infection in maize** ..... W. N. Stoner

982 **A relationship between flat apple disease and cherry rasp leaf disease** ..... C. L. Parish

CYTOLOGY AND HISTOLOGY

985 **Effect of the systemic fungicide 4-n-butyl-1,2,4-triazole on the development of Puccinia recondita f. sp. tritici in wheat** ..... J. E. Watkins, L. J. Littlefield, and G. D. Statler

PHYSIOLOGY AND BIOCHEMISTRY

990 **Sporulation in Bipolaris maydis: enhancement by xylose** ..... M. O. Garraway and R. C. Evans

994 **Purification and characterization of a factor that stimulates tissue maceration by pectolytic enzymes** ..... S. Ishii

1001 **Association of formamide hydro-lyase with fungal pathogenicity to cyanogenic plants** ..... W. E. Fry and P. H. Evans

1007 **Changed metabolic pathways and the germination of Alternaria solani spores** ..... P. E. Waggoner and J. -Y. Parlange

1012 **Hypersensitive resistance: determination of lignin in leaves with a localized virus infection** ..... W. C. Kimmins and D. Wuddah

1017 **Effect of ethidium bromide and acridine orange on the in vitro synthesis of bromegrass mosaic virus RNA** ..... M. Barreto, J. Kummert, and J. Semal

ECOLOGY AND EPIDEMIOLOGY

1021 **Pseudoperonospora cubensis in rust-infected bean** ..... C. E. Yarwood

1023 **Wind and rain dispersal of Fusarium moniliforme in corn fields** ..... J. J. Ooka and T. Kommedahl

1027 **Effect of Bacillus spp. on increased growth of seedlings in steamed and in nontreated soil** ..... P. Broadbent, K. F. Baker, N. Franks, and J. Holland

VECTOR RELATIONS

1035 **Serological properties of aphid-transmissible and aphid-nontransmissible pea enation mosaic virus isolates** ..... R. G. Clarke and J. E. Bath

GENETICS

1041 **Mating groups in Fusarium moniliforme** ..... W. H. Hsieh, S. N. Smith, and W. C. Snyder

1044 **Transmission of R plasmids among Xanthomonas spp. and other plant pathogenic bacteria** ..... M. Lai, N. J. Panopoulos, and S. Shaffer

RESISTANCE

1051 **The effect of nitrogen fertilization on the expression of slow-mildewing resistance in Knox wheat** ..... G. Shaner and R. E. Finney

1057 **The role of delphinidin and sugars in the resistance of pea seedlings to Fusarium root rot** ..... J. M. Kraft

DISEASE CONTROL AND PEST MANAGEMENT

1062 **Antagonism between Cercospora kikuchii and other seedborne fungi of soybeans** ..... K. W. Roy and T. S. Abney

1067 **Sites of action of fungicides in the control of citrus melanose** ..... J. O. Whiteside

TECHNIQUES

1073 **Reassessment of soil assays for Verticillium dahliae** ..... E. J. Butterfield and J. E. DeVay

1078 Erratum

No. 9 — SEPTEMBER

1079 **Howard Reed Gariss, 1909-1976** ..... D. E. Ellis, F. A. Todd, and J. C. Wells

ETIOLOGY

1080 **Ozone and Botrytis interactions in onion leaf dieback: open-top chamber studies** ..... R. T. Wukasch and G. Hofstra

1085 **Infection of avocado and other species of Persea by Phytophthora cinnamomi** ..... H. H. Ho and G. A. Zentmyer

1090 **Viruslike particles associated with a rhododendron necrotic ringspot disease** ..... D. L. Coyier, R. Stace-Smith, T. C. Allen, and E. Leung

1096 **Association of tomato ringspot virus with a chlorotic leaf streak of Cymbidium orchids** ..... L. M. Goff and M. K. Corbett

PHYSIOLOGY AND BIOCHEMISTRY

1101 **Effects of watersoaking on response of Xanthomonas vesicatoria in pepper leaves** ..... A. A. Cook and R. E. Stall

ECOLOGY AND EPIDEMIOLOGY

1104 **Influence of soil temperature and moisture on the severity of Cylindrocladium black rot in peanut** ..... P. M. Phipps and M. K. Beaute

1108 **Factors important in artificial inoculation of Pinus strobus with Cronartium ribicola** ..... E. M. Hanson and R. F. Patton

1113 **Epidemiology and control of bacterial leaf blight of corn** ..... D. R. Sumner and N. W. Schaad

1119 **Fire blight epidemiology: factors affecting release of Erwinia amylovora by cankers** ..... S. V. Beer and J. L. Norelli

1126 **Seed transmission of peanut mottle virus in peanuts** ..... D. B. Adams and C. W. Kuhn

1130 **Changes in growth rate and nitrogen content of tomato plants after exposure to NO_2** ..... J. J. Troiano and I. A. Leone

GENETICS

1134 **Genetic and cytological evidence for a diploid life cycle in Pythium aphanidermatum** ..... C. W. Dennett and M. E. Stanghellini

RESISTANCE

1142 **Cephalosporium stripe of winter wheat: pathogen virulence, sources of resistance, and effect on grain quality** ..... D. E. Mathre, R. H. Johnson, and C. F. McGuire

DISEASE CONTROL AND PEST MANAGEMENT

1149 **Preventive and curative trunk treatments for control of Phytophthora foot rot of citrus** ..... L. W. Timmer

1155 **Chemical control of stem rot of rice in California** ..... L. F. Jackson, R. K. Webster, C. M. Wick, J. Bolstad, and J. A. Wilkerson

1159 **Biological control of cucumber black root rot by Gliocladium roseum** ..... A. R. Moody and D. Gindrat

1163 **Pesticide-plant disease interactions: effect of cycloate on sugar beet damping-off induced by Rhizoctonia solani** ..... J. Altman and C. L. Campbell

TECHNIQUES

1166 **New tests to distinguish teliospores of Tilletia controversa, the dwarf bunt fungus, from spores of other Tilletia species** ..... E. J. Trione and B. B. Krygier

No. 10 — OCTOBER

1173 **Paul Victor Siggers, 1889-1977** ..... A. F. Verrall

ETIOLOGY

1174 **Identity and relative virulence of some heterothallic Phytophthora species associated with root and stem rot of safflower** ..... J. M. Klisiewicz

1178 **Serological and physiological differentiation among isolates of Erwinia carotovora from potato and sugarbeet** ..... M. E. Stanghellini, D. C. Sands, W. C. Kronland, and M. M. Mendonca

1183 **Bacterial vascular necrosis and rot of sugarbeet: general description and etiology** ..... S. V. Thomson, M. N. Schroth, F. J. Hills, E. D. Whitney, and D. C. Hildebrand

1190 **Southern bean mosaic virus: evidence for seed transmission in bean embryos** ..... J. K. Uyemoto and R. G. Grogan

1197 **Serological relationships among beet western yellows, barley yellow dwarf, and soybean dwarf viruses** ..... J. E. Duffus

1202 **Alfalfa latent virus, a naturally occurring carlavirus in alfalfa** ..... V. Veerisetty and M. K. Brakke

1207 **Purification and serological detection of mushroom viruslike particles** ..... J. W. Moyer and S. H. Smith

1211 **Transmission of the RNA species associated with cadang-cadang of coconut palm, and the insensitivity of the disease to antibiotics** ..... J. W. Randles, G. Boccardo, M. L. Retuerma, and E. P. Rillo

CYTOLOGY AND HISTOLOGY

1217 **Ultrastructure of extracted carnation etched ring virus inclusion bodies treated with proteolytic enzymes and DNase** ..... R. H. Lawson and S. S. Hearon

1227 **Anatomical changes associated with the development of gold fleck and fruit pox symptoms on tomato fruit** ..... R. Ilker, A. A. Kader, and L. L. Morris

PHYSIOLOGY AND BIOCHEMISTRY

1232 **Heat- and aging-induced tolerance of sorghum and oat tissues to host-selective toxins** ..... C. R. Bronson and R. P. Scheffer

1239 **Effect of nitrogen fertilization on free amino acid and sugar content of Poa pratensis and on infection and disease severity by Drechslera sorokiniana** ..... P. W. Robinson and C. F. Hodges

1245 **Endogenous germination inhibitors in teliospores of the wheat bunt fungi** ..... E. J. Trione

1250 **Xylanase from Trichoderma pseudokoningii: purification, characterization, and effects on isolated plant cell walls** ..... C. J. Baker, C. H. Whalen, and D. F. Bateman

ECOLOGY AND EPIDEMIOLOGY

1259 **Heat- and cold-induced retention of inoculum by leaves** ..... C. E. Yarwood

1262 **Spore production and dispersal of Alternaria dauci** ..... J. O. Strandberg

1267 **The role of dew and temperature in the epidemiology of Botrytis leaf blight of onion** ..... P. B. Shoemaker and J. W. Lorbeer

1273 **Virulence, temperature optima, and competitive abilities of isolines of races T and O of Bipolaris maydis** ..... K. J. Leonard

RESISTANCE

1280 **Fertilizer-induced changes in susceptibility to fusiform rust vary among families of slash and loblolly pine** ..... S. J. Rowan

1285 **Protection of watermelon and muskmelon against Colletotrichum lagenarium by Colletotrichum lagenarium** ..... F. L. Caruso and J. Kuć

1290 **Field protection of cucumber, watermelon, and muskmelon against Colletotrichum by Colletotrichum lagenarium** ..... F. L. Caruso and J. Kuć

DISEASE CONTROL AND PEST MANAGEMENT

1293 **Control of Pythium blight on bean with ethazol and prothiocarb** ..... G. C. Papavisas, J. A. Lewis, R. D. Lumsden, P. B. Adams, W. A. Ayers, and J. G. Kantzes

TECHNIQUES

1300 **Application of interference microscopy to the study of fungal penetration of epidermal cells** ..... S. Mayama and A. J. Pappelis

1303 **Seed germinability tests for predicting field emergence of rice seeds infected with Helminthosporium oryzae and Trichoconis padwickii** ..... M. M. Kulik

1305 **Immunofluorescent stain procedures for detection and identification of Erwinia carotovora var. atroseptica** ..... E. Allan and A. Kelman

1313 **Location of curly top virus antigen in bean, sugarbeet, and tomato by fluorescent antibody staining** ..... D. L. Mumford and W. R. Thornley

No. 11 — NOVEMBER

1317 **Ralph Merrill Caldwell, 1903-1976** ..... K. L. Athow, R. J. Green, J. F. Schafer, and G. Shaner

1318 **Paul James Allen, 1914-1976** ..... K. B. Raper, W. R. Bushnell, and L. Sequeira

DISEASE DETECTION AND LOSSES

1319 **Impact of Dothistroma needle blight and Armillaria root rot on diameter growth of Pinus radiata** ..... C. G. Shaw, III and E. H. A. Toes

ETIOLOGY

1324 **Pythium species associated with strawberry roots in Japan, and their role in the strawberry stunt disease** ..... T. Wantanabe, K. Hashimoti, and M. Sato

1333 **Phialophora melinii: inoculations in wounded red maple** ..... A. L. Shigo

1338 **Hordeum jubatum as a source of inoculum of Septoria avenae f. sp. triticea and S. passerinii** ..... B. L. Shearer, B. Skovmand, and R. D. Wilcoxson

1342 **Response of soybean foliage to reciprocal challenges by ozone and a hypersensitive-response-inducing pseudomonad** ..... E. J. Pell, F. L. Lukezic, R. G. Levine, and W. C. Weissberger

1346 **Purification and properties of foxtail mosaic virus** ..... A. Q. Paulsen and C. L. Niblett

1352 **Identification and comparison of two isolates of tomato bushy stunt virus from pepper and tomato in Morocco** ..... H. U. Fischer and B. E. L. Lockhart

PHYSIOLOGY AND BIOCHEMISTRY

1356 **Elicitors of terpenoid accumulation in potato tuber slices** ..... N. Lisker and J. Kuć

ECOLOGY AND EPIDEMIOLOGY

1360 **Enhanced severity of Thielaviopsis basicola root rot induced in soybean by the herbicide chloramben** ..... M. Lee and J. L. Lockwood

1368 **Influence of dew on downy mildew of cantaloups in South Texas** ..... C. E. Thomas

1370 **Temperature and humidity associated with sporulation of Helminthosporium maydis race T** ..... J. R. Wallin and D. V. Loonan

1373 **Origin of Phytophthora cinnamomi: evidence that it is not an indigenous fungus in the Americas** ..... G. A. Zentmyer

1378 **Effect of leaf wetness duration and temperature on the infectivity of Guignardia bidwellii on grape leaves** ..... R. A. Spotts

1382 **Occurrence of soft-rot Erwinia spp. in soil and plant material** ..... T. J. Burr and M. N. Schroth

1388 **Synergism in cereals between corn leaf aphid-specific and aphid-nonspecific isolates of barley yellow dwarf virus** ..... C. C. Gill and A. Comeau

GENETICS

1393 **Double-stranded RNA in Endothia parasitica** ..... P. R. Day, J. A. Dodds, J. E. Elliston, R. A. Jaynes, and S. L. Anagnostakis

1397 **Inheritance of a morphological factor limiting infection by Ustilago hordei** ..... W. Pedersen, L. Jensen, R. L. Kiesling, and L. Darlington

RESISTANCE

1400 **Light intensity as a factor in field evaluations of general resistance of potatoes to Phytophthora infestans** ..... G. Schumann and H. D. Thurston

1403 **Evaluation of pathogenic variability of Cronartium fusiforme on loblolly pine in the southern USA** ..... H. R. Powers, Jr., F. R. Matthews, and L. D. Dwinnell

1408 **Tolerance to barley yellow dwarf virus in oats** ..... H. Jedlinski, W. F. Rochow, and C. M. Brown

DISEASE CONTROL AND PEST MANAGEMENT

1412 **Effect of fungicides on Septoria leaf and glume blotch, Fusarium scab, grain yield, and test weight of winter wheat** ..... B. J. Jacobsen

1415 **Similarities between the fungicidal action of isoprothiolane and organophosphorus thiolate fungicides** ..... M. Katagiri and Y. Uesugi

1418 **Protecting muskmelons against aphid-borne viruses** ..... H. H. Toba, A. N. Kishaba, G. W. Bohn, and H. Hield

TECHNIQUES

1424 **Analysis of the proteins in crude plant extracts by polyacrylamide slab gel electrophoresis** ..... V. Conejero and J. S. Semancik

No. 12 — DECEMBER

ETIOLOGY

1427 **Characterization of the bacterium inciting chocolate spot of corn** ..... R. de L. D. Ribeiro, R. D. Durbin, D. C. Arny, and T. F. Uchytil

1433 **Sedimentation coefficients of the virions of soil-borne wheat mosaic virus** ..... M. K. Brakke

1439 **Partial purification and some properties of bamboo mosaic virus** ..... M. T. Lin, E. W. Kitajima, F. P. Cupertino, and C. L. Costa

1445 **Purification, serology, and some physical properties of dasheen mosaic virus** ..... M. M. Abo El-Nil, F. W. Zettler, and E. Hiebert

1451 **Host range, symptomatology, and electron microscopy of a persistent, aphid-transmitted virus from alfalfa in Michigan** ..... G. Thottappilly, Y-C. Kao, G. R. Hooper, and J. E. Bath

CYTOLOGY AND HISTOLOGY

1461 **The disease cycle and fungus-host relationships in dallisgrass ergot** ..... E. S. Luttrell

PHYSIOLOGY AND BIOCHEMISTRY

1469 **Influence of CO_2 uptake of barley leaves on incubation period of powdery mildew under different light intensities** ..... H. J. Aust, W. Domes, and J. Kranz

1473 **Identification of the germination self-inhibitor from uredospores of Puccinia striiformis** ..... V. Macko, E. J. Trione, and S. A. Young

ECOLOGY AND EPIDEMIOLOGY

1475 **Epidemiology and chemical control of Godronia (Fusicoccum) canker of highbush blueberry** ..... P. E. Parker and D. C. Ramsdell

1481 **Epidemiology and chemical control of Phomopsis canker of highbush blueberry** ..... P. E. Parker and D. C. Ramsdell

1485 **Characterization of the Periconia circinata population in a milo disease nursery** ..... G. N. Odvody, L. D. Dunkle, and L. K. Edmunds

1491 **The effect of matric and osmotic potential of soil on Phytophthora root disease of Persea indica** ..... R. E. Sterne, G. A. Zentmyer, and M. R. Kaufmann

1495 **The influence of matric potential, soil texture, and soil amendment on root disease caused by Phytophthora cinnamomi** ..... R. E. Sterne, G. A. Zentmyer, and M. R. Kaufmann

1501 **Ascospore dispersal and infection of grapes by Guignardia bidwellii, the causal agent of grape black rot disease** ..... D. M. Ferrin and D. C. Ramsdell

1507 **Interaction of the endomycorrhizal fungus Gigaspora margarita and root-knot nematode on cotton** ..... R. W. Roncadori and R. S. Hussey

1513 **Airborne spore dispersal and recolonization of steamed soil by Fusarium oxysporum in tomato greenhouses** ..... R. C. Rowe, J. D. Farley, and D. L. Coplin

GENETICS

1519 **Virulence in Puccinia coronata f. sp. avenae and P. graminis f. sp. avenae in New Zealand** ..... J. W. Martens, P. A. Burnett, and G. M. Wright

1523 **Intra-isolate heterokaryosis in Pyricularia oryzae** ..... J. Fatemi and R. R. Nelson

1527 **Stability of plasmid-borne antibiotic resistance in Xanthomonas vesicatoria in infected tomato leaves** ..... M. Lai, S. Schaffer, and N. J. Panopoulos

For Volume 67

INDEX FOR VOLUME 67

AUTHOR AND SUBJECT INDEX. Junior authorship is indicated by page numbers in parentheses. Page numbers of illustrations are in boldface. Pages of errata are in italics. A special listing is made of "new diseases, species, and varieties."

Abney, T. S., (1062)
Abo El-Nil, M. M., 1445
Acer rubrum, Phialophora melinii on, presence in wounds, 1333
Aceria tulipae, wheat streak mosaic virus vector, detection with fluorescent antibodies, 570, **571**
Achlya flagellata, on tuber slices, terpenoids elicited from, 1356
Acyrthosiphon pisum
on alfalfa and clover, Fusarium roseum interaction, 226
vector for
alfalfa latent virus, 1202
alfalfa virus, 1451
pea enation mosaic virus, serological properties of, 1035
Adair, C. R., 715
Adams, D. B., 1126
Adams, P. B., (1293)
aerobiology, Cercospora sequoiae juniperi on juniper, in Nebraska, 234
aflatoxin (see **toxin**)
Agaricus bisporus, viruslike particles in, purification and serology of, 1207
Agrios, G. N., (604)
Agrobacterium radiobacter, biological control of A. tumefaciens on Prunus, 139
air pollution (see **pollution, air-**)
Aist; J. R., 187, 455, (497)
Albregts, E. E., (430)
aldicarb (see **nematicides**)
Aldwinckle, H. S., 259
alfalfa
Fusarium roseum on, pea aphid and potato leafhopper interaction with, 226
Peronospora trifoliorum on, sporangium development and discharge, factors affecting, 890, **891**
persistent aphid-transmitted virus from, electron microscopy, 1451, **1453**, **1456**, **1457**
alfalfa latent virus, on alfalfa, a new carlavirus, 1202
alfalfa mosaic virus, gamete-seed transmission of, effect on germination and yield, 576
Allan, E. 1305
Allen, T. C., (1090)
Allium cepa (see **onion**)
Alper, M., (448)
Alternaria sp., on blueberry, postharvest vulnerability to stem-end scars of, 118
alternata
tentoxin produced by, plant insensitivity to, 602
on tobacco
biocontrol with Bacillus cereus, 930
nonpathogenic Alternaria as protectant, 128
dauci
spore production and dispersal, 1262
spores airborne in, weather relations, 879
solani, spore germination of, metabolic pathways, 1007
tenuis, Gonatobotrys simplex on, mycoparasite, 309, **310-312**
Altman, J., (557), (791), 1163
American Phytopathological Society
manuscript preparation, author's guide to, 5
reviewer acknowledgment, 1
Ammon, V. D., (325)
Anagnostakis, S. L., (1393)
Ananas comosus (see **pineapple**)
Andean potato mottle, in cowpea mosaic virus group, new member of, 969, **972**
Anikster, Y., (941)
Anguina lolii, on rye grass, complex with Corynebacterium, 828
anthracnose (see **Colletotrichum** spp.)
antibiotics
Blasticidin-S, acquired tolerance in Pyricularia oryzae, 421
oxytetracycline-HCl, peach X-disease symptom remission by, 277
syringomycin, produced on corn and cowpea, 475
Apelbaum, A., 400
Aphanomyces euteiches
growth, reproduction, and infectivity affected by herbicide, 551, **552**, **555**
oospores of, parasites on, 622
on pea, herbicide effect on, 273
on tuber slices, terpenoids accumulated in, 1356
Aphis gossypii, vector for commelina mosaic virus, 839
Aphrodes bicinctus, on celery, new vector for aster yellows, 522
Apium graveolens (see **celery**)
apple
fire blight of, epidemiology, 1119, **1120**
flyspeck of, etiology, 580, **582**
Gymnosporangium juniperi-virginianae on, resistance to, 259
Venturia inaequalis on, hypersensitivity vs. host-pathogen interaction, 108
apple scab (see **Venturia inaequalis**)
Apt, J. W., (700)
Arachis hypogaea (see **peanut**)
Aragaki, M., (820)
Armillariella novae-zelandiae, on Pinus radiata, growth effect, 1319
Arny, D. C., (1427)
Arthrobacter sp., in suppressive soil, effect on Fusarium oxysporum, 502
Aspergillus
flavus
on corn, aflatoxin B recovery from, factors, 544
on peanut, aflatoxin contamination by, 922
japonicus, host tissues macerated by, 994
aster, mycoplasmalike organisms in, dark treatment effect on ultrastructure, 321, **322**, **323**
aster yellows, on celery, insect vector transmission, 522
Athow, K. L., (267), 1317
Aust, H. J., 1469
Avena sterilis (see **oats**)

avocado (see **Persea spp.**)
Ayers, J. E., (85)
Ayers, W. A., (1293)

Bacillus spp., use and seed bacterization, 1027
bacteriophages, in Erwinia amylovora, on apple tree surfaces, 101
Baines, R. C., 936
Baker, C. J., 1250
Baker, K. F., 580, (1027)
Baker, R., (72), (373)
bamboo mosaic virus, purification and properties of, 1439, **1441**
Bardin, R., (957)
Barkai-Golan, R., (400)
barley
bromegrass mosaic virus on, effect on TMV replication, 484, *1078*
brome mosaic virus in protoplasts of, 610, **611, 614**
Erysiphe graminis hordei on, papilla formation during penetration, 455, **457, 459**
mildew of
infection factors, 1469
infection in resistant mutants, 678, **681**
rust on, polygene-controlled differential resistance in, 776
barley stripe mosaic virus, ultrastructure of infected tissue 462, **463-465**
barley yellow dwarf virus
on cereals, synergism between aphid-specific and nonspecific isolates of, 1388
on corn, symptoms of, 975
in oats, tolerance to, 1408
serological relation to beet western yellows and soybean dwarf viruses, 1197
Barmore, C. R., (120)
Barnett, O. W., 448
Barreto, M., 1017
Bateman, D. F., (862), (1250)
Bath, J. E., (1035), (1451)
Bauer, W. D., 862
bean (see also **Phaseolus vulgaris**)
golden yellow mosaic of, viruslike nucleoprotein particle relation to, 37, **40**
bean curly dwarf mosaic virus, symptoms and properties in El Salvador, 163, **164, 165**
bean yellow mosaic virus, strains of, serology and biology of, 831
Beckman, C. H., 954
Beer, S. V., 1119
beet curly top virus, isolate of, plant age and resistance to, 151
beet western yellows virus
serological relation to barley yellow dwarf and soybean dwarf viruses, 1197
on soybean, susceptibility and immunity to, 269
Beier, H., 917
benomyl (see **fungicides**, specific)
Beta vulgaris (see **sugar beet**)
Beute, M. K., (1104)
Binder, R. G., 472
biological control
Alternaria alternata on tobacco by nonpathogenic Alternaria spp., 128, **131**
bean root rot by plant residue decomposition, 925
Botrytis spp. on onion leaves, phyllosphere bacterial effect on, 96
brown spot of tobacco with Bacillus cereus, 930
Colletotrichum lagenarium by earlier inoculation, 533
crown gall in Prunus by Agrobacterium radiobacter, 139
Fusarium wilt of pea, relation to inoculum potential of, 72
Gliocladium roseum for cucumber black root rot, 1159
watermelon and mosaic protected against Colletotrichum lagenarium by prior inoculation, 1285, 1290
Bipolaris maydis (see also *Helminthosporium* maydis)
on corn, races T and O of, temperature effect, 1273
sporulation of, enhanced by xylose, 990
Bird, A. F., 828
Bird, J., (37)
Biswas, K., (548)
blueberry (see also **Vaccinium** corymbosum)
canker of, epidemiology and control, 1475, **1476**
Phomopsis canker of, epidemiology and control, 1481, **1482**
postharvest decay of, stem-end scar vulnerability in, 118
Blue, R. L., (763)
Boccardo, G., (1211)
Bohn, G. W., (1418)
Boll, R. K., (903)
Bolstad, J., (1155)
Botrytis spp.
on onion
etiology and control of, 155, **156**
interaction with ozone, 1080
leaf nutrient dependency from 2 spp. of, 212
allii, on onion, leaf penetration by, interference microscopy used for study, 1300, **1301**
cinerea
on blueberry, postharvest vulnerability of stem-end scars to, 118
on Dendrobium, blossom blight from, 820, **821, 822**

Pyricularia oryzae
fungicides for, relation to synergistic action of fungicides, 1415
heterokaryosis in, 1523
tolerance to Blasticidin-S, acquired, 421
Pyrus communis (see **pear**)
Pythium spp.
on bean, chemical control of, 1293
hymexazol for inhibition on medium, 796
medium for selective inhibition of, 425
oospores of, parasites on, 622, **625**
in soil, distribution from subsoiling, 783
on strawberry roots in Japan, stunt disease role, 1324
aphanidermatum
diploid life cycle of, genetic evidence for, 1134, **1135-1137**, *1316*
on tuber slices, terpenoids elicited from, 1356
polymorphon, on celery, in roots infected by nematodes, 497, **499**, *810*
ultimum, inhibitor of, from soil, 67

Ramsdell, D. C., (1475), (1481), (1501)
Ramularia areola, on cotton, spore germination and infection process, 351, **354, 355, 357**
Rana, G. L., (763)
Randles, J. W., 1211
Raper, K. B., 1318
Rathaiah, Y., 351, 358
Rawn, C. D., 338
Reese, J., (735)
Reiling, T. P., (273)
resistance
apple
to Gymnosporangium juniperi-virginianae, 259
to Venturia inaequalis, hypersensitivity relation, 108, **112**
barley to leaf rust, polygene controlled, 776
barley with ml-o genes to mildew, 678, **681**
chilli pepper to pepper veinal mottle virus, 115
corn to stalk rot from Diplodia and Colletotrichum, 105
cucumber to Fusarium wilt, 525
hypersensitive-, leaf lignin related to virus, 1012
kohlrabi to Olpidium brassicae, 187
potato to late blight
integrated control techniques, 415
light intensity factor, 1400
rice to bacterial blight, inheritance of, 772
safflower
to Phytophthora drechsleri, temperature and inheritance effects, 698
to Phytophthora spp., 1174
soybean to beet western yellows virus, 269
sugar beet
to beet curly top virus, 151
to Erwinia, 912
sugarcane to Gibberella moniliformis, 689
tobacco to Meloidogyne incognita, evaluation of isolates, 537
on tomato to bacterial wilt, soil temperature effect, 909
vessel endings in 13 spp., significance in disease, 954
wheat
to leaf rust, 759, 766
to powdery mildew, slow resistance, nitrogen effect, 1051
winter wheat to Cephalosporium stripe, 1142
Retuerma, M. L., (1211)
Rhizoctonia
bataticola (see **Macrophomina phaseolina**)
solani
growth affected by cycloate, 557

population in soil, screening procedure for measurement, 566
in soil, distribution from subsoiling, 783
on sugar beet
aldicarb effect on culture, growth, and damping-off, 791
cycloate effect on, 1163
Rhizopus oryzae, Syncephalis californica parasitized by, factors affecting, 664, **665**
rhododendron necrotic ringspot, viruslike particles associated with, 1090, **1091-1093**
Rhopalosiphum maidis, on corn, synergism among isolates of barley yellow dwarf virus, 1388
Ribeiro, O. K., (91)
Ribeiro, R. de L. D., 1427
rice
bacterial blight of, inheritance of resistance to, 772
seedborne infection by, effect on germinability and emergence, 1303
stem rot of, chemical control in California, 1155
Richardson, P. E., (195)
Richmond, S., (533)
rickettsialike organism
on peach, recovery of phony diseased plants, 945, **946**, **947**
Pierce's disease of grapevine, Lactobacillus role reinvestigated, 298

Sneh, B., 622
Snow, J. P., 589
Snyder, W. C., (580), (1041)

Soh, A. C., 115
soil fungi, soil extract inhibitory effect on 15 spp. of, 67
sorghum
milo disease of, populations, 1485, **1486**
seed bacterization with Bacillus, 1027
toxins in, heat and aging effect, 1232
southern bean mosaic virus
in bean, seed transmission of, 1190
in soybean callus culture, synthesis in, low temperature

effect, 60
virions on pollen surface, 393, **396**
soybean
beet western yellows virus of, susceptibility and immunity of, 269
cowpea mosaic virus from, yellow subgroup member, in Illinois, 844, *1426*
endomycorrhizal fungi on, effect of hyperparasites on, 490, **492**, **494**, **495**
ozone and pseudomonad effect on, 1342
Phytophthora megasperma sojae on
3 new races of, 267
phytoalexin and flavonoid synthesis, relation, 50
powdery mildew of, perfect stage of pathogen, 726, **727**
root rot of, severity enhanced by chloramben, 1360
seedborne fungi on, antagonism among, 1062
southern bean mosaic virus in callus tissue of, low temperature effect, 60
soybean dwarf virus, serological relation to beet western yellows and barley yellow dwarf viruses, 1197
soybean mosaic virus, soybean root nodules affected by, ultrastructure, 199, **201-203**
spiroplasma
corn stunt caused by, growth medium for isolation, 738
medium for culture of, 802
Spiroplasma citri
isolation and growth medium for, 739
leafhopper vector for, 763
Spotts, R. A., 1378
Spurr, H. W., Jr., 128, (930)

Stoner, W. N., 975
Strandberg, J. O., 1262
strawberry
stunt disease of, Pythium spp. associated with, in Japan, 1324
viruses in, growth and yield affected by infections of, 573
Stromberg, E. L., 693
Stuteville, D. L., (890)
Stynes, B. A., (828)
sugar beet
bacterial vascular necrosis and rot of, 1183, **1185**
Cercospora beticola on, stomatal tropism, 358, **359-361**
curly top virus on, plant age and resistance effect, 151
damping-off of, pesticide-disease interactions, 1163
Erwinia on, resistance to, 912
Erwinia carotovora on, biotypes of, 1178
powdery mildew of, epidemiology, 619
Rhizoctonia damping-off of, aldicarb effect on, 791
sugarcane, Gibberella moniliformis on, resistance to, 689
Sumner, D. R., 1113
Sutton, J. D., (879)
sweet potato, Erwinia chrysanthemi on, wilt and root rot from, 302, **305**
Syncephalis californica, on Rhizopus oryzae, factors affecting parasitism, 664, **665**
